RFID Tag Placement Plan

Note:

- NOTE:**

 1. In case the tags at signal post does have a sleeper exactly at the signal post, the tag to be placed on the immediate sleeper that falls after the signal post.
 2. Duplicate Tag provided with same number as above to be placed at a minimum distance of 4 Mtrs after the main tag in the direction of the train movement except for turnout tags.
 3. Distance between the MainTag and Duplicate Tag cannot exceed 5 Mtrs.

4. Earlier we taken the direction for main lines as same as the loco movement, but now we are taken the direction for main lines is opposite to the loco movement.

PREPARED BY	VERIFIED BY

NOTE:

All Tags need to be placed as per RFID tag layout V 2.1.1
